

Dr. Kun Zhang has a broad research interest in various topics in the field of magnetospheric physics, including radiation belt dynamics, electron precipitation, and dayside interactions. Her research integrates the analysis of satellite data, numerical simulations, and plasma theory. She actively participates in community service through outreach and peer review activities.

EMPLOYMENT

Assistant Professor, Embry-Riddle Aeronautical University, Daytona Beach, FL	Jan 2026 — present
Assistant Researcher, University of California Los Angeles, Los Angeles, CA	Sept 2023 — Dec 2025
Postdoctoral Researcher, Space Science Institute, Boulder, CO	Aug 2020 — Aug 2023

EDUCATION

Ph.D. in Aerospace Engineering Sciences, University of Colorado Boulder, Boulder, CO	Aug 2020
Thesis title: Findings on the characteristics of radiation belt electrons: precipitation loss, CRAND source and upper flux limit	
B.S. in Space Science & Technology, Peking University, Beijing, China	July 2015
B.S. in Computer Science, Peking University, Beijing, China	July 2015

FUNDS

NASA Heliophysics Guest Investigators 80NSSC25K7684 (Principal Investigator)	2025 — 2028
Transmission of non-monochromatic foreshock ULF waves into the magnetosphere.	
NASA Early Career Investigator Program 80NSSC23K1059 (Principal Investigator)	2023 — 2027
The generation mechanisms of foreshock ULF wave harmonics.	
NSF GEM AGS-2247758 (Principal Investigator)	2023 — 2026
How upstream solar wind conditions determine the properties of the foreshock backstreaming ions	
NASA Heliophysics Supporting Research 80NSSC25K7748 (Co-Investigator)	2025 — 2028
Effect of 3-D morphology on ULF waves in the ion foreshock	

AWARDS AND FELLOWSHIPS

NASA Earth and Space Science Fellowship (NESSF), NASA	2017 — 2020
Dean's Fellowship, University of Colorado Boulder	2015 — 2016
John T. Gosling Endowed Fellowship, Laboratory for Atmospheric and Space Physics	Sept 2015
Awards for Excellent Students, Peking University	2013 — 2014

ACTIVITIES

Session Convener : Dayside Magnetosphere Interactions, AGU Fall Meeting	2026
Session Convener : Dayside Upstream Waves&Structures and Their Impact on Downstream Space Environment, AOGS	2026
Session Convener : Dayside Magnetosphere Interactions, AGU Fall Meeting	2025
Organizer, Researcher Lunch Seminars, EPSS, UCLA	2024-2025
Review Editor, Frontiers in Astronomy and Space Sciences	2023-present
Booth: Our Magnetic Sun, EXPLORE YOUR UNIVERSE outreach event, UCLA	2022-2024
Chair of Session SM33A: Dayside Magnetosphere Interactions II Oral, AGU Fall Meeting	2022
Reviewer for journals, JGR Space Physics, GRL, Space Weather, PoP, etc.	
Served on NASA and NSF review panels
